

Computer Software

The unauthorized copying of any computer software which is licensed or protected by copyright is theft, and thus unethical.

Failure to observe software copyrights and/or license agreements may result in disciplinary action by the District and/or legal action by the copyright owner.

No District-owned computing resources should be used for unauthorized commercial purposes.

Respect for the intellectual work and property of others has traditionally been essential to the mission of education institutions. The District does not tolerate plagiarism, and does not condone the unauthorized copying of software, including programs, applications, databases and code.
