

Dear Parents-

We have made it through the first quarter. Students have been working hard in all academic areas and working on following school expectations. As the weather continues to get colder please ensure that your children are dressed appropriately. Unless the temperature is below zero degrees students will be outside for recess.

Thanks for everyone's support with the fundraiser. The money earned pays for our swimming program, student equipment, playground needs, and field trips for all classes. Students did a great job raising money and they wouldn't be able to do it without your help-thank you!
